01 / PREPARE YOUR ENQUIRY

Start with clear photos.

A few useful photos and basic details help our team understand your enquiry and discuss the next step.

Service needed

Collection, dismantling & demolition, or scrap metal brokerage.

Scrap metal or items

What you have, its condition, and what you want removed or supplied.

Quantity & location

Approximate quantity or item count, plus the site address or postal code.

Timing & access

Your preferred date or window, any deadline, and known access limits.

A Send an overview and a close-up.

Overview photo

Show the full batch or area so we can see the items and surroundings.

Close-up photo

Show the scrap metal type, condition or connections. Include a label if available.

Take photos from a safe position. Do not climb, move heavy items or disconnect equipment to take a photo.

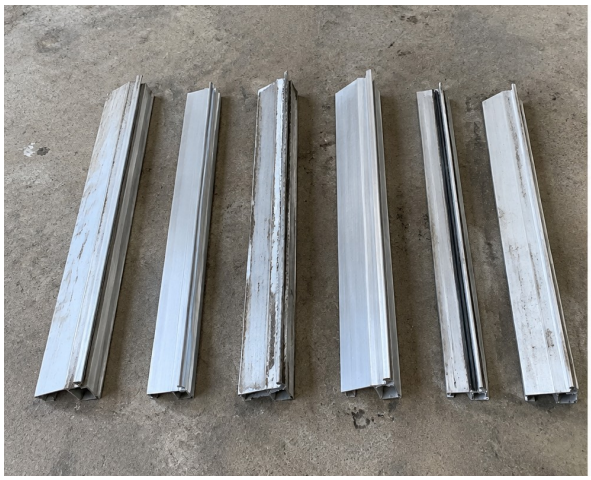
Illustrative photo examples - not LAE project photos.

02 / QUANTITY, SIZE & ACCESS

Show the scale and the access.

You do not need an exact weight to start. Use photos, an item count and approximate dimensions if the quantity is unknown.

B Quantity & size



Whole batch

Show all the items so the batch can be understood and counted.

Approximate size

Share rough length, width or height. Use a tape measure only where safe.

C Location & access

Site approach

Show the entrance or route to the collection or work area.

Access limits

Mention stairs, narrow passages, vehicle limits, operating hours or site rules.
